Software Engineer | Full Stack Developer | Technical Consultant

Bogor, West Java, Indonesia | +62 813-9554-0904 | g.alfadiansyah@gmail.com | [linkedin.com/in/giovanni-alfadiansyah](https://www.linkedin.com/in/giovanni-alfadiansyah)

PROFESSIONAL SUMMARY

Results-driven **Software Engineer & Technical Consultant** with 3+ years of professional experience in enterprise backend architecture, full-stack systems, and cybersecurity applications. Currently engineering backend microservices for **Badan Siber dan Sandi Negara (BSSN)** using **Java 21, Spring Boot, and SSO ConnectIDN (FAL2)**. Proven track record in modernizing legacy banking services to **Java & Spring Boot** for **Bank Mega (CCBM Division)**, engineering **Odoo ERP** systems for **Singapore Technologies (ST MES)** with **Python**, and building full-stack applications with **C# (.NET), React.js, and PostgreSQL**.

TECHNICAL SKILLS

Languages & Databases: Java (21/17), Python, TypeScript, JavaScript, C# (.NET), PHP, SQL, PostgreSQL, Redis, MySQL
Frameworks & Security: Spring Boot 3/4, Spring Security, SSO ConnectIDN (FAL2), TOTP MFA, NestJS, ASP.NET Core, React.js, Odoo ERP
DevOps & Tools: Git, GitHub, Docker, Linux/VPS Administration, Testcontainers, AWS S3, Postman, CI/CD, Agile/Scrum

WORK EXPERIENCE

Badan Siber dan Sandi Negara (BSSN) Jakarta, Indonesia | Apr 2026 – Present
Software Engineer (Backend / Java)

- **LMS Backend & Security:** Architect high-security backend microservices in **Java 21 & Spring Boot**, integrating **SSO ConnectIDN FAL2 (JWS/JWE)**, **TOTP MFA**, and Refresh Token Rotation (RTR).
- **Data & Storage:** Built 24 JPA entities across 38 Flyway migrations in **PostgreSQL** with AWS S3 media storage and dynamic QR-verified certificate engine.

PT. Wixander Beneficia Technology Jakarta, Indonesia | Aug 2025 – Mar 2026
Technical Business Analyst & Odoo ERP Consultant

- **ERP & MES:** Led Odoo ERP implementation for *Teck Leong Metals ERP* and *ST MES (Singapore Technologies - Manufacturing Execution System)* with custom **Python** modules and barcode shop-floor routing.

PT Xsis Mitra Utama Jakarta, Indonesia | Oct 2023 – Apr 2025
Software Engineer (Backend & Full Stack)

- **Bank Mega (CCBM Division) — Contract: 3 + 12 Months:** Spearheaded backend revamp of Call Center Bank Mega (CCBM) services from legacy **PHP** to **Java & Spring Boot** (6 months), followed by production maintenance and 99.9% uptime delivery.
- **Internal Pharmacy System (C# & React):** Co-developed internal healthcare management portal using **C# (ASP.NET Core)** and **React.js** in a 4-developer squad, automating prescription processing and stock reconciliation.

Diceritain West Java, Indonesia | Oct 2022 – Dec 2022
Software Engineer Intern (Frontend / Full Stack)

- **Rebranding & Performance:** Rebuilt company platform with **React.js & Next.js**, improving load speed by 35%+ and boosting SEO indexing.

PLABS.ID West Java, Indonesia | Mar 2021 – Dec 2021
Software Engineer Intern (Full Stack)

- **E-Commerce System:** Built *Kapalasar* e-commerce portal from scratch using **Laravel, Node.js, and React.js** with MySQL database optimization and payment gateway integration.

KEY PROJECTS

Online Tutoring Platform (UP Learning Centre) NestJS, TypeScript, PostgreSQL, Docker
• Architected RBAC authentication (JWT), dynamic teacher scheduling algorithms, and normalized PostgreSQL schemas with Docker VPS deployment.

Faculty Data Monitoring Portal — FMIPA UNPAD Laravel, PHP, MySQL, Bootstrap
• Engineered centralized data monitoring dashboard, eliminating manual spreadsheets and reducing administrative turnaround by 50%.

EDUCATION & CERTIFICATIONS

Universitas Padjadjaran (UNPAD) Aug 2017 – Aug 2023
Bachelor of Science in Computer Science (S1 Teknik Informatika / Ilmu Komputer)

Certifications: Back End Development & APIs (freeCodeCamp) | Enterprise .NET (C#) & Java Bootcamp (Xsis Academy)
